

Healthcare, Medicines and Pain Advice

Pharmacists are highly trained in recognising symptoms of Disease and where appropriate, recommending either treatment or referral to your doctor.

At Facer Pharmacy we are available to answer any queries you have concerning your medication and can tell you which counter medicines are safe to take with any existing medication. Each Pharmacist specialises in the knowledge of medicines, dosages, interactions and how medicines act on the body. You can talk to our Pharmacist in confidence, even about the most personal symptoms and you do not need to make an appointment. Facer Pharmacy now has a private consultation area where patients can discuss issues with pharmacy staff without being overheard by other members of the public.
